

## EUROPEAN CHAMPIONSHIPS

### Senior Teams

Originally held in Scheveningen, The Netherlands, in 1932, the European Bridge Team Championships became the principal competition organized by the European Bridge League for teams representing the member countries.

The senior series became part of the competition much later, in 1995. Since 2002, the European Team Championships are held every even-numbered year.

All in all, France are won most medals (4 gold, 2 silver and 5 bronze).

In 2010 the Senior series will be played as a single complete round robin provided that the number of participating countries is sufficient. It is anticipated that matches will be of 16 or 20 boards, depending on the number of matches played.
